

Refund Policy

(Adopted 8-11-2011)

Refunds will be given only through the first organized activity of any program unless the Granville Recreation District (GRD) cancels the program or the participant experiences a medical problem which prohibits program participation. In addition, if the GRD has already purchased supplies, no refunds will be given. When a medical problem exists, the refund will be a prorated amount based on the number of sessions remaining in the program less the service charge. There will be a \$20 service charge for refunds issued due to participant cancellation (per participant/per occurrence) unless stated otherwise in program description. In cases where the minimum number of registrants is not received for a program, the GRD may have to cancel the program. In cases of program cancellations, full refunds will be issued to all registrants.
